This beautiful urban plot of 652m2 is located in the quietest area of the village of Tolox. To access we must leave the car at the entrance of the town and take a nice ten minute walk through its typical alleys. The plot is characterized by its great tranquility and absolute privacy, you only hear the sound of the waterfall of a small river that passes a few meters from it. Despite the proximity, the land is NOT floodable due to the height that exists between both. We can also find different fruit trees well arranged in different areas, such as orange, fig, avocado and pomegranate. Availability of electricity services, with own tower and meter, water and sewer. Right next to it, there is a Construction of 106m2 as well on sale for 25.000â‚¬. Initially registered as a warehouse, it is distributed over two floors. Link to the plot of the construction:

From the street, there is another access to the property. This space was used as a warehouse. It has a covered terrace overlooking the adjoining plot. Once we enter the closed area is divided into two diaphanous floors where we can find a bathroom with shower. So if you like nature, it will be a beautiful place to enjoy it a step away from all the services offered by the town of Tolox. Do not hesitate to call us and make a visit. GP1
